

SOUNDPROOF BOOTH

Enjoying a green future

PRODUCT INTRODUCTION

30mins

an active worker loses on average thirty minutes of work per day because of annoyance related to noise.

66%

office workers are 66% less productive in an open-plan office than when left on their own

23mins

It takes an average of 23 minutes and 15 seconds, to return to the original task after an interruption

48%

short-term memory recall decreases when employees are exposed to high noise levels compared to those in a quieter environment

In the information age, every day we work in the face of changes any-time and anywhere. Therefore, the upgrading demand for office space is constantly updated. In order to meet the unique needs of various creative spaces, based on the modular design concept, provides customized styles from S to XL with different sizes, different materials and different use scenarios, to meet the different needs of each creative space in the new era, so that creativity and efficiency can be more perfectly displayed.

Feature	Description
Sound Insulation	Effectively reduces external noise and prevents sound leakage, ensuring privacy and a quiet environment.
Ventilation System	Maintains airflow and comfort, preventing stuffiness inside the booth.
Comfort Design	Ergonomic seating and appropriate space size for comfort.
Smart Controls	Easy operation with one-touch control of lighting, ventilation, audio, and temperature

Feature	Description
Lighting System	Soft lighting suitable for work and relaxation, with adjustable color temperature and brightness.
Mobility	Easy to move, allowing flexible layout in various office spaces.
Safety Performance	Electrical safety, environmentally friendly and non-toxic materials, and compliance with fire safety standards.
Multi-functional Interfaces	Power outlets, USB ports, for convenient device connection.

Why Need?

A thoughtfully designed space that takes into consideration the diverse work patterns and activities that employees engage in throughout the day. Not only does it provide excellent sound isolation but it also offers a range of amenities and equipment within arm's reach, allowing for seamless and efficient daily work. With

- ① Air Ventilation
- ② Laminated Glass
- ③ Environment Control
- ④ Aluminum Frame

- ⑤ LED Ceiling Lights
- ⑥ Upholstered Interior
- ⑦ Power Supply
- ⑧ Furniture

Solo Working

Quiet and focused environment for an individual

Phone Calls & Video Conferences

Perfect setting for important phone calls or participating in virtual meetings

Group Meetings

Small group discussion could happen here without disturbing others

Private Conversations

Ideal for confidential discussions or one-on-one meetings

Reading & Meditation

Creating an ideal space for personal reflection or diving into a good book

Rapid Installation

The modular design allows an office to have a new room within several hours

S 1-PERSON

External Dimension	W1050*D1006*H2310MM
Internal Dimension	W926*D910*H2182MM
Glass Panel	Double Laminated(5+1.14PVB+5mm)
Door	W950*H2200MM
Power Usage	USB-A*1 Qualcomm-QC 3.0, USB-C*1 PD20W Output: 5V/3A, 9V2.22A, 12V/1.67A
Lighting	720 LED strap-shape lamp × 1, strength and temperature adjustable
Rotary Dimmer Panel	Aluminum alloy surface with anodized finish. Function keys allow independent rotary control of fan, light, and color temperature, adjustable across 10 levels (1-10) with on-screen level display.
GPO/USB/DATA/ WIRELESS CHARGING	2 five-hole universal sockets (multiple national standards optional), rated current: 10A, rated power: 1100w/110v, 2400w/240v, withstand voltage specification: DC3000V10mA 10s

99% Recyclable

By choosing recyclable materials, we contribute to reducing our carbon footprint and preserving the earth's resources. Our dedication to sustainability extends to every aspect of our production process, from sourcing to manufacturing. We take pride in using materials of exceptional quality and eco-friendliness in our products. We are committed to offering you the best while caring for the environment.
